

DIMENSIONS / WEIGHT

- Based on Ford F550

Overall Length	274"	With boom in storage position
Overall Width	100"	With outriggers in storage position
Overall Height	130"	With boom in storage position
Weight & Payload		
- Basic Vehicle with boom	15 000 Lbs.	(Minimum weight for stability)
- Payload	4 000 Lbs.	
Flat deck Area	100 ft ²	(approx. 96" x 150") mounted on a 108" C.A.

CRANE SPECIFICATIONS

- 42 ft. sheave height
 - 100° of boom travel (+80° to -20°)
 - 5, 000 Lbs. Capacity turret winch
 - Lifting Capacity @ 10' radius = 4 000 lbs
 - 9/16" Nylon winch rope with swivel hook
 - Fully hydraulic 2nd and 3rd boom extension
 - Fiberglass insulated 3rd boom
 - Full pressure hydraulics
 - Automatic reset H.O.P. system with function lockouts
 - Auger overstorage protection
 - Boom side load protection
 - Horn at boom console
 - Boom angle indicator at boom console
 - Pressure gauges at boom console
 - Engine throttle at boom console
 - Dual joysticks for elevation/rotation and 2nd/3rd boom
 - Folding bucket
 - 600 Lb capacity jib at bucket
 - Outrigger interlock
 - Moving outrigger alarm
 - Conforms to ANSI A10.31
 - Full continuous rotation
 - 40 Gallon hydraulic reservoir
 - Oil cooler available
 - Auger digging radius 12' to 20'
 - 3 000 Ft/lb auger drive
 - Up to 18" auger storage
 - Level gauges on tower (2)
 - 2 sets of operations, parts and service manuals
 - Recommended chassis = 19 500 Lb GVW - 84" C.A.
- Specifications subject to change without notice.
