K6 CRAWLER CARRIER

KODIAK

K6 CRAWLER CARRIER

FULL GUIDE AND TECHNICAL SPECIFICATIONS

DIMENSIONS / WEIGHT	
Overall Length	229" (with plow)
Overall Width	101"
Overall Height	106" in transport position
Base Carrier Weight	12,500 lbs
Ground Clearance	20"
Weight & Payload	
- Basic Vehicle	12,500 lbs
- Payload Capacity	12,000 lbs
- GVWR	28,000 lbs (two-man cab), 24,000 lbs (one-man cab)
Deck Area	108" x 92"
PERFORMANCE DATA	
Maximum speed	8 mph
Inside turning radius	0 ft.
Climbing Ability	
- Uphill	35° (70%)
- Side-hill	15° (27%)
Ground Pressure	2.23 PSI no load, 4.36 loaded
Normal Driving Range	12 Hours (40 U.S. gallon fuel tank)
ENGINE	
Make	Deutz AG
Model	TCD 3.6 L4, 134 HP, 4 cylinder
Displacement	3.6 liters
DEF Tank	2.6 gals.
Fuel capacity	50 gals.
Torque	369 ft lbs. @ 1,600 RPM

FRAME / SUSPENSION	
Type	Corten Welded Tub
Suspension	Walking beam with double twin rocker bogey wheels
Wheels	16 steel wheels
Size	12" steel with oil hub
Suspension system comes with:	
• 2 independent idler wheels with oil hubs & steel face seals	
• 2 x rear drive sprockets	
TRACKS	
One piece 24" rubber tracks with steel reinforcements	
STEERING	
Independent dual joysticks with cable control for each track	
Steering Wheel (optional)	
ELECTRICAL	
Voltage	12 V
Battery Capacity	1,060 CCA
Alternator Capacity	120 Amps
POWER TRAIN FOR HYDROSTATIC DRIVE	
Transmission	Hydrostatic, 2-speed
Parking Brakes	Multi-disc, spring applied & pressure released
Service Brakes	Positive deceleration via hydrostatic transmission
CARRIER STANDARD FEATURES	
<ul style="list-style-type: none"> • 2-man cab with climate control • Vinyl seat with mechanical suspension • Seat belt • Full instrumentation • Fire extinguisher • Backup alarm • Horn 	<ul style="list-style-type: none"> • 2 High powered LED Front lights, • 1 Rear light and 1 Strobe • Driver's side deck ladder • Electronic engine protection system • Primary fuel filter with water separator • Operations, Service and Parts Manual

OPTIONAL EQUIPMENT & ACCESSORIES		
<ul style="list-style-type: none"> • 2 Way front plow • 16,500 lb electric winch • 18,000 lb hydraulic winch • Air Conditioning • Rear view camera 	<ul style="list-style-type: none"> • Additional LED lights • Spark arrestor • Cold weather options • Extreme Cold Weather options • Front brush guard 	<ul style="list-style-type: none"> • DOT Road Lighting • Pintle hook • 100 Hours service kit • Additional parts & service manuals • 3 point seat belt

KODIAK K6 FIRETRACK

RAISE THE BAR.

When it comes to wildfire mitigation and suppression, accessibility of fire sites is crucial. During a wildland fire, those sites are oftentimes off-road – making it difficult to access with traditional wheeled vehicles.

That's where we come in.

Designed for extreme mobility, the Kodiak K6 FireTrack offers unparalleled all-terrain handling, topped with an expertly designed fire package, the Kodiak FireTrack raises the bar: offering unmatched off-road suppression ability, advanced mitigation capability and overall response time improvement.

Suppression starts here.

The Kodiak K6 FireTrack comes standard with a precision-built medium flow skid system that is designed to support your wheeled fleet. Featuring a lighter line and lower flow rate, the fire package is ideal for quick attack scenarios: offering both traditional and UHP (10 GPM) firefighting capability.

The skid system is completely customizable and can handle both foam and organic, USDA approved water enhancing gel concentrates.

Selected Skid Features:

- Centrifugal pump with 130gpm flow rate at 130psi
- 300 gallon custom poly tank with 10 gallon foam or gel concentrate line
- Two 1.5" outputs & one 2.5" drafting inlet
- Optional TurboDrive UHP pump with 12gpm flow rate at 800psi to 8gpm flow rate at 1200psi

Excellence by design

Marking a significant advancement in all-terrain performance, the Kodiak K6 introduced a revolutionary suspension redesign featuring a patent-pending walking beam. Built with two sets of twin rocker arm bogey wheels, the redesign delivers unparalleled traction: maximizing track-to-ground contact for the most capable crawler carrier yet.

Selected Crawler Carrier Features:

- Two-man closed cab design with climate control
- 12,000 lb payload
- Advanced track & walking beam design
- 134 HP engine
- 2.23 psi ground pressure
- 16,500 -lb hydraulic winch
- One-piece rubber track for easy maintenance
